

Reduce your design services cost with Unirac's industry-leading design services. Our team has over 100,000 plan sets experience nationwide. You will receive new files within 24 hours and revisions within 12 hours while maintaining a consistent quality level of 90% first-time approval from the AHJ. Our team is passionate about your success giving you an unrivaled experience allowing you to focus on selling and installing solar. Let the Unirac design team become an extension of your team!

SCOPE:

- Permit Design Packages
- Structural and Electrical Professional Engineer Review and Stamps
- Experience with all Energy Storage Manufacturer Systems
- Preliminary Sales Layout
- Shade Analysis and Energy Production Estimates
- Homeowner's Approval Layout
- Support Across 50 States
- Intuitive Portal for Easy Tracking and Communication
- Custom Templates to Fit Your Needs

LOWEST COST

We have simple two-level pricing based on **your volume**.

Experience the best pricing in the industry tailored to meet your project needs. There is no hidden fee associated with energy storage designs. We can offer you the best rates in the industry. Even if you already outsource your designs, you can expect significant savings of up to 1-2 cent/Wp by partnering with us.

HIGHEST SERVICE LEVEL

Our team is your team! **We succeed when you succeed.**

This is the foundation upon which we build our services. We offer turnaround times of 24 hours for new plan sets, 12 hours for revisions. We can customize your plan set designs based on your needs. Our tailored templates and AHJ database will ensure first time right compliance with the AHJ.

UNRIVALED CUSTOMER EXPERIENCE

Your experience will be guided by our Customer Success Team, which consists of **dedicated customer champions**.

They work with you to ensure that your expectations regarding service level are always met. We establish a regular cadence with your team and transparency into our service level. We have a user-friendly and intuitive portal that streamlines the entire process of requesting, tracking, communication and receiving your projects.

CUSTOMER TESTIMONIALS

“Unirac design has become an integral part of our business operations and we’re very satisfied with the decision.”

Director Of Operations
Multi-State Installer

“It’s been great! Turnaround time is good, plans are clear and legible, team is very responsive.”

Lead Designer
Multi-State Installer

“The Unirac portal for packets has been amazing. It has streamlined this area of our projects and we plan to utilize it as long as we can.”

Design Manager
PNW Installer

“We could not have grown this much without Unirac’s design services.”

Director Of Engineering
Multi-State Installer

“We are very impressed that your team looked through our previous submittals to come up with this information! Thank you for doing so. Efforts like these are what keep us happy and committed to a long-term partnership with Unirac for our planset needs.”

Design Specialist
NC Installer

“Unirac plan-sets are the highest quality and most accurate plan sets we have ever used. Their turnaround time is second to none and can be customized to your specific needs. The plans are so accurate, I feel like the designer is an in-house employee that knows exactly how the installation team is going to build the project. We could not be happier with our results”

Vice President
